

Summer School registration fees and payment schedule:

A \$65 registration fee and payment for the **first two classes** you register for are due upon registration. Any remaining balance of payment is due on June 1st for classes that begin in June and for June unlimited After School Club (ASC). Payment is due on July 1st for classes that begin in July and for July unlimited ASC. Payment is due on August 1st for classes that begin in August and for August unlimited ASC. Hourly Clubroom time is billed at the end of the month.

Morning classes are from 9-11:30 AM (Morning drop off starts at 8:45AM with pickup by 11:45AM) and afternoon classes are from 12:45-3:15 PM (Afternoon drop off starts at 12:30PM with pickup by 3:30PM). Students ages 3-10 may attend both morning and afternoon classes for a full day option. Our Clubroom service provides more flexibility for dropping off and/or picking up at a time that works for your schedule (see below). Students who attend all day attend the lunch period free of charge. If your child attends either AM or PM Montessori or Discovery class only, you may request to add the lunchtime (\$13/hour for the days attended).

Allergies & Medical Needs: Please be sure to fill out the allergies/food sensitivities/medical information section of your registration form to let us know if there are foods/allergens to be sure to avoid.

Sun Protection: We recommend hats and long-sleeved sun-protective shirts as the best choice for sun protection. Please apply 8-12 hour sunscreen before arriving at school. Because sunscreen (and lip balm) are considered medication by the state, if you would like us to reapply sunscreen, **you must fill out and sign a Sunscreen Medication Authorization form and hand the sunscreen directly to a staff member** (please provide two bottles if attending morning and afternoon Discovery Camps). Sunscreen will be kept at school until you come to pick it up; it will not be returned daily.

Prep Program (ages 2-1/2 to 3): \$355/two-weeks M-F mornings, offered session 4

Offered to children 2-1/2 to 3 years of age, this class is a gentle introduction to school for children enrolled in the fall Prep Program. The children will learn to be away from mom or dad, get used to a school routine and will have lots of fun exploring the classroom. All sorts of manipulative activities, singing, movement, finger plays and stories will be provided. Potty training will be one of the skills taught in this program. Offered M-F July 31-August 11.

Montessori (ages 3-6): \$345/two-weeks half-days (prorated 8-day camp \$276 S#2)

New students will find attending a two-week Montessori class to be a great head start for the coming school year. Returning students will enjoy continuing to practice and refine the academic and social skills they've learned during the year as well as being guided to new challenges and meeting new friends. Taught by our own Montessori teachers, Montessori class is a relaxed way for new students to become comfortable with school and be away from mom and dad, possibly for the first time and a familiar setting for returning students. This is an ideal class for children ages 3 to 6. Children must be 3 years old and potty trained prior to class. Summer Montessori classes will be held in rooms 2 and 3. We may use one or both classrooms depending on enrollment. Sessions 1-5 are two weeks long (session 2 is 8 days as we are closed for the July 4 holiday and are offering only daycare on Monday, July 3; class price is prorated).

Montessori Classes	Mornings 9-11:30AM	Afternoons 12:45-3:15PM
Session 1: June 19-30	Crouse/Haslam/Venkatesan	Crouse/Trivedi/Van Waes
Session 2: July 5-14 (8 days)	Crouse/Gopalan/Gupta	Crouse/Burden
Session 3: July 17-28	Crouse/Gopalan/Atkins	Crouse/Van Waes
Session 4: July 31-Aug. 11	Burden/Rahman	Trivedi/Callihan
Session 5: August 14-25	Burden/Gradinaru/Van Waes	Crouse/Gradinaru

Clubroom available August 28-Sept. 5 (2017-2018 School Year starts Wed. 9/6)

Students ages 3-10 enrolled at SMS may attend Clubroom before morning or after afternoon summer school classes and/or during our teacher preparation and training week. Children will do a wide variety of activities, games, and projects. You may use just the time you need, however, please sign up in advance so that we can better plan for staffing and projects. Daytime Clubroom (9AM-3:15 PM): \$13 per hour offered M-F August 29-September 6 (off Labor day). Early Birds (7:30-9AM): \$13/hour. After School Club (3:15-6:15 PM): \$13/hour or \$360/month with prepayment discount.

Discovery Units: \$355/two-week class sessions 1& 3-5 (\$284 session 2)

Offered to children ages 4 to 10. Children must turn 4 prior to attending a Discovery class. These hands-on classes are a fun way to spend the summer. Sessions are two weeks long (except session 2 is 8 days as we are closed for the July 4 holiday and are offering Clubroom daycare only on Monday, July 3. Please let us know if you need your child to attend on that day.)

Session 1 Discovery Unit Classes (Ages 4 to 10): \$355/class

Little Bakers

Van Waes/Dillard

Mornings June 19-30

Do you like making cookies? Have you ever wondered how to make bread? In this class we will learn all about baking and make a lot of different delicious baked snacks from making our own pizza to muffins, cookies, bread, pretzels, scones, and more!

Sports Camp

Baltzer/Gupta

Mornings June 19-30

Hit it! Throw it! Just do it! Join us for a sports camp extraordinaire. Indoor and outdoor activities include soccer, t-ball, basketball, relays, foosball, air hockey, an obstacle course and more! This will be a lot of good, old-fashioned summer fun! We will learn about good sportsmanship and what it means to work as a team. Cross your fingers for sunshine and please be sure to wear sunscreen and a hat. Have comfortable clothes and your athletic shoes on and be ready for some fun! At the end of the class we will hold our own mini Olympics.

Money Math

Trivedi/Carlson

Mornings June 19-30

It's fun and easy to learn to count, add, and subtract using money. Counting coins in a piggy bank can be a lot of fun. We'll learn where money comes from, why we use money, who is on the face of our coins and dollars and most importantly how to shop, spend, save and budget. We'll even go on a field trip together to Target and use real money! It is never too early to learn about money and how it can be used.

Globetrotters

Kimble/Ward

Afternoons June 19-30

Let's make our own passport and get ready for a whirlwind world tour as we travel from one continent to another, learning about some countries along the way. We'll learn about cities, customs, climates, plants and animals found in different parts of the world. Learn to read and make maps and get ready to make and sample some traditional foods from around the world! Through songs, games, puzzles and more, we'll trot the globe.

All About China

Dillard/Lin/Lee

Afternoons June 19-30

Ni Hao! Hello! Learn to speak Mandarin Chinese. Learn to recognize and write Chinese characters, numbers and words. Sing Chinese songs and rhymes. Learn about traditional Chinese art forms and sample some delicious Chinese foods. Play some of the games and activities children in China love to do. Shu jia jian! See you in the summer.

Puppet Theater

Baltzer

Afternoons June 19-30

Perform, sing and have fun! Create finger puppets, sock puppets, paper bag puppets and stick puppets. We'll do a lot of puppet shows based on familiar stories such as Goldilocks and the 3 Bears, Peter and the Wolf the 3 Little Pigs, and 5 Little Monkeys. We'll learn all about each type of puppet from simple silhouette puppets to marionettes. Come and be a puppeteer!

Session 2 Discovery Unit Classes (Ages 4 to 10): \$284/class

IMPORTANT NOTE: Session 2 classes begin on Wednesday, July 5. Our Clubroom daycare is available on Monday, July 3 with advance sign up. The school is closed Tuesday, July 4 for the Independence Day holiday.

Camp SMS

Baltzer/Venkatesan

Mornings July 5-14

Come and join us for picnicking and camping adventures right here at school! From packing a picnic basket to inviting friends and preparing foods we can practice communication and organizational skills. We'll go on hikes, learn how to use a compass, and figure out which direction we are going (north, south, east, west). We will play games, sing campfire songs, and learn about animals you are likely to see in the Pacific Northwest and observe the natural world around us. We will also learn about what supplies are needed for camping and survival out in the wild!

Digging for Dinosaurs

Trivedi/Carlson

Mornings July 5-14

Get ready to be a part-time paleontologist. Walk on the ancient continents of Pangaea, Laurasia and Gondwanaland with large and small omnivores, carnivores and herbivores. Learn about the Brachiosaurus, Tyrannosaurus Rex, and many other dinosaurs that lived in the Triassic, Jurassic and/or Cretaceous periods. Be ready to do loads of arts and crafts, dig up dinosaur bones, and even eat some dinosaurs! Remember to bring a shoebox to make into your own dinosaur diorama.

World Art

Repyak/Dillard

Mornings July 5-14

Budding artists will explore the natural beauty of color and light while learning about French Impressionism: Henry Matisse (cut paper), Claude Monet (mixing primary colors to make water lilies), Pablo Picasso/George Braque (geometric shapes, cubism), and the Italian Renaissance (mosaics). We also will discover the Art of Africa (Maori and South Africa) through textiles, weaving, beading, pattern making and storytelling as well as Australian aboriginal art and Asian brushwork.

From Garden to Table

Van Waes/Ward

Afternoons July 5-14

Have you ever wondered where your food comes from? Yes; the grocery store. But how does it get there? Let's find out together. We'll do some gardening and discovering how things grow. We'll discover where the orange juice you had for breakfast comes from and how bread is made. What about string cheese or chocolate? We'll squeeze our own orange juice and bake our own bread. We will look at farming methods around the world and germinate our own seeds. We will make a lot of different healthy snacks too, so come with a healthy appetite for food and fun. Bon Appetit!

Brain Games

Callihan/Trivedi

Afternoons July 5-14

Join your friends in summer fun with easy, and sometimes challenging games and activities. Try out games called the Rock & Roll, Tunnel Time, Infinity Walk, Crazy-8 Skip, Jump-Rope Jive, Gravity Glider, Hoop-Hop and Rainbow Hopscotch. Create colorful drawings using both sides of your brain. Did you know accurate pencil grip supports your brain? Try a variety of pencil grips and fun writing activities to challenge your brain! We'll be doing activities inside and outside so be sure to come prepared for (hopefully) sunny weather!

Crafty Kids

Baltzer/Carlson

Afternoons July 5-14

Get ready to be creative! Learn to sew, thread a needle, tie a "magic knot," master the basic stitch and finger-knit. With these skills you will be able to make your own nine-patch pillow. We will also make friendship bracelets and rubber band bracelets and do a lot of different arts and crafts projects every day. Let's get crafty!

Session 3 Discovery Unit Classes (Ages 4 to 10): \$355/class

Storytelling/Drama

Baltzer/Ward

Mornings July 17-28

Once upon a summer there was a class that dressed up, acted, crafted props, built a set, and enjoyed the theater. In this class we'll also explore and perhaps even make our own endings to familiar stories. Was Little Red Riding Hood really on the way to her grandmother's house? Did the three little pigs really outsmart the wolf? We will also be creating our own stories as a group, practicing and reading, writing, and creative thinking skills. Enjoy a summer class filled with stories and fairy tales to hear, see, write, and play!

Ocean Creatures

Muldowney/Kerr

Mornings July 17-28

Calling all marine biologists and oceanographers! Do you want to learn about some of the biggest creatures in the sea – like giant whales and manatees? How about some of the cutest – like sea otters and porpoises? Do you like to watch fish swim? We will explore large and small creatures of the sea with a lot of hands-on investigation, make a bunch of craft projects and do "ocean" art. Then we'll end our session by preparing a "sea" food snack (No no actual seafood will be served; we will be making creative snacks to simulate creatures of the sea).

Bugs, Wings & Crawley Things

Trivedi/Venkatesan

Mornings July 17-28

Calling all budding entomologists! You'll learn about insects and their importance to our world. Visit the itty-bitty-bug cities all around us and get a whole new look at the life of bugs up close. We'll study butterflies, ladybugs and bees and even the creepy-crawler insects. Learn about insects and the natural world through a variety of hands-on activities, art, music, and stories. Join us for a garden safari and discover the wonders of the insect world and what makes each type of bug so unique. Buzz on over for a fun-filled study of the invertebrates that share our planet.

Master Builders

Muldowney/Kimble

Afternoons July 17-28

Have you ever marveled at the skyscrapers so tall they almost touch the sky? Or long bridges suspended in the air? How were they built? Do you like to design and construct your own buildings with blocks, bricks or Legos? In this hands-on class, there are no limits to your imagination and creativity. You can build an ancient pyramid, a Roman aqueduct, a medieval castle or create a skyline of New York City. We will explore other famous architectural landmarks around the world, such as the Taj Mahal, Machu Picchu, the Great Wall of China, Stonehenge, the Eiffel Tower and others. Best of all, with a variety of building materials such as wood, clay, cardboard and paper, we will create our own 3D scale models to take home. This class will emphasize how to cooperatively plan, develop strategies and deal with mistakes (remember the Leaning Tower of Pisa?) while having lots of fun with building.

Creation Station

Baltzer/Ward

Afternoons July 17-28

There are no limits to your creativity in this class! Every day we'll use a mountain of recyclable materials to assemble one-of-a-kind masterpieces. We'll make up our own stories, dances, games and performances and use our imagination to change familiar ones in new and different ways. We'll spend time problem-solving and working collaboratively to build new and wonderful things. We can build with blocks, Lego, and found objects, turning them into new and exciting creations. Get ready for lots of open-ended arts and crafts and see where our imagination can take us. *(Please help us with toilet paper and paper towel tubes, clean milk cartons, small boxes, yogurt containers, scrap wood, fabric pieces, yarn and any other recyclable items that could be transformed into unique and playful pieces of art. Remember that one person's trash may be another person's treasure!)*

Culinary Kids

Repyak/Callihan/Vegvari

Afternoons July 17-28

In this mouth-watering unit we will focus on the joy of cooking . . . and eating. We will learn how to follow a recipe, use different cooking techniques and discover what it takes to make great "little chefs." Explore a variety of foods and cuisines and document your journey with a "tasting passport." Get ready to join an adventure into the world of touch, taste and texture. *(Please be sure to fill out the allergies/food sensitivities section of your registration form and let the teachers know.)*

Session 4 Discovery Unit Classes (Ages 4 to 10): \$355/class

Science In Motion Vegvari/Digdhe Mornings July 31-August 11

Science is everywhere. We just have to look and we will notice how levers, pulleys, and gears can be found in different machines and tools we use every day! If you like to find out how things work, if you like to fly paper airplanes, race matchbox cars, take things apart and put them back together, then this class is for you! We will use a variety of simple machines and make our own projects creating marble racks, catapults, rockets and more. We will learn about famous inventors, discover the concepts of action and reaction, the transfer of energy, gravity, and much more, all while having fun with science in motion!

Wild Kingdom Muldowney/Kerr Mornings July 31-August 11

Why do giraffes have long necks? How do camels survive in a hot desert? Wouldn't a polar bear like to live somewhere warm? If you have ever wondered about animals, this class is for you. We will visit animal habitats such as the savanna, desert, Polar Regions, tropical rain forests and others to discover how animals have adapted to a range of different conditions. Create a 3-D model of your favorite animal habitat and choose from a variety of hands-on arts and crafts. Learn about habitat protection and how we can all help keep animals around the world safe and healthy.

Game Crazy Trivedi/Baltzer Mornings July 31-August 11

Do you like to play board games, silly games and sports? From board games like Scrabble, Twister, Quirkle and Candy Land to friendship and trust-building games to learning team sports we'll explore the gamut of games. We'll learn about what it means to be a good sport and a great friend. We'll practice teamwork and how to peacefully work through conflicts and disagreements. We'll play some hilarious games, work on skills that improve concentration and focus and do plenty of fun arts and crafts. We'll learn to strategize, plan ahead and simply have fun. We can even invent our own games! Inside and outside, we'll have a wonderful time while learning the skills to make lasting friendships and be successful in sports, school and life.

Space Explorers Burden/Carlson Afternoons July 31-August 11

Space – the final frontier. These are the adventures of the Starship SMS. Come and explore our solar system and its various planets and stars. Learn all about the planets and their characteristics, space travel, and the constellations. Choose from many different arts and crafts, science experiments, and group projects. Use your imagination to make your very own alien creature. Look to the constellations and boldly go where no class has gone before. Learn about rockets and enjoy our own rocket launch day (weather permitting)! Beam aboard with Captain Burden, First Mate Carlson and their crew for a trip you won't soon forget.

Planes, Trains & Automobiles Muldowney/Vegvari Afternoons July 31-August 11

Fly! Drive! Race! We'll make models and do it all. From bi-planes to jets, from steam engines to bullet trains, from model-T to a quarter-mile dragster, we will study the design and technology used in each, then build our own models and race them. We'll construct railway tracks and design airport runways. Have you ever wondered about unusual forms of transportation – like a zodiac or hot air balloon? If you are curious about transportation and vehicles that are strong, strange and move fast, this class is for you!

French Chefs Van Waes/Savaria Afternoons July 31-August 11

Immerse yourself in French language and culture. Learn French vocabulary through songs, arts and crafts, food preparation and a wide variety of entertaining and educational activities. Find out the French words for shapes, colors, animals, parts of the body, fruits and vegetables, etc. Study the countries where people speak French. And, get ready to help cook and eat some delicious French foods. Que c'est délicieux!

Session 5 Discovery Unit Classes (Ages 4 to 10): \$355/class

Music & Movement

Vegvari

Mornings August 14-25

Can you slither like a snake? Hop like a kangaroo? Fly like a hummingbird? If you love to pretend, have lots of energy and like to move around, this class is for you. Using scarves, beanbags, hoola-hoops, and an obstacle course, we'll explore how to move around to music. Use household items to create your own instruments and explore many real instruments too. We'll also learn about dances from cultures around the world: North America, Europe, South America and more! This active class will improve balance, build strength and flexibility, improve concentration and teach teamwork, all while having a wonderful time. Each day will end with a cool-down period using breathing and yoga.

Lego Mania

Crouse/Baltzer

Mornings August 14-25

Explore! Build! Create! If you love Legos, then this is the class for you. We will explore the history of Legos, have daily Lego challenges, build Lego projects, play games and use our imaginations to come up with our own creative creatures and objects. By the end of this hands-on class, you will be Lego crazy!

Summer Fun

Haslam/Dillard

Mornings August 14-25

Come celebrate the joys of summer! Stay cool while running through sprinklers in addition to many more wet-and-wild activities. Spend time at our very own campground and make a campfire and "toast" marshmallows, pitch a tent, sing songs and more! Enjoy nature walks and scavenger hunts as well as nature-themed crafts. And what summer celebration would be complete without home-made popsicles and other summer treats? Please send your child with a bathing suit including a sun-proof swim-shirt and hat or change of clothes and a towel each day and make sure sunscreen has been applied **before** arriving to class.

Fit Kids

Callihan/Vegvari

Afternoons August 14-25

Do you know what your body needs to be healthy? We'll learn how good hygiene, healthy food, enough sleep, exercise activities for the mind and body and exposure to fresh air are vital to keeping our bodies working properly. Help put a model human body together piece by piece, learn all about the main systems and explore the mind-body connection through large and fine motor activities. Get ready to play lots of fun sports and group games to get our blood pumping, like soccer, basketball, relay-races and obstacle courses, bean-bag toss, hoola-hoops, trikes, scooters, jump-rope, parachute and more! Cross your fingers for sunshine and please be sure to wear sunscreen and a hat. Have comfortable clothes and your athletic shoes on and be ready for some fun while learning to be a fit kid!

Pets Galore

Burden/Baltzer

Afternoons August 14-25

If you love animal friends then this is the class for you! Each day new animals will be visiting the class: gerbils, birds, frogs, fish, rabbits, guinea pigs, etc. On the last day of class we will hold a pet show. Come in and show your pet, just like you would in 4-H club. (If you do not have a live pet you can participate with a stuffed animal.) Parents are asked to attend the pet show to help hold the larger live pets. We will learn facts about the pet of the day and sing songs, read stories, and do arts and craft projects relating to each pet. A special visitor will come to school to give horse/pony rides. (Details and a participation waiver will be sent home and a small additional field trip fee will be collected to cover the horse/pony visit.)

Kitchen Chemistry

Van Waes/Kimble

Afternoons August 14-25

Mix, stir, add, mold, carve, press, freeze, and squeeze your way into the exciting world of kitchen chemistry. We'll take you beyond the books on an exciting, hands-on adventure – with fun activities and plenty of experiments using simple things found in the kitchen. We'll make our own little volcanoes, watch as we change flowers into different colors by letting them drink colored water, make glue from milk and more. We'll even do some taste tests to learn how our tongue can tell the difference between sweet, salty, sour, and bitter. We will use the discovery method encouraging children to think on their own and discover by experimentation versus explanation.
